CLASSIC | A SIMPLE & CLEAN FINISH

DECORWALL CLASSIC

Looking for wall panels that offer both high-end luxury and affordability? The Decorwall Classic Range is the ideal choice for you. These panels are far more than just budget-friendly; they embody premium quality at its finest. Crafted with a unique blend of high-quality PVC with reduced chalk content, these panels provide exceptional quality without the hefty price tag. Each panel, measuring a convenient 2.7 meters in length and 25cm in width, with a robust thickness of 8mm, combines practicality with upscale aesthetics.

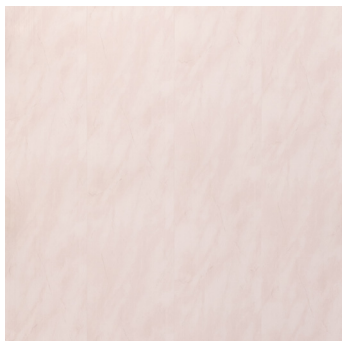

The Decorwall Classic Range offers you a choice of seven different finishes. This allows you to experiment with everything from sleek, modern designs to warm, traditional looks. The panels fit together seamlessly, ensuring your walls exude a cohesive appearance. Choose Decorwall Classic Range for an elegant transformation of your spaces, where luxury meets affordability.

DECORWALL MINERAL

In pursuit of a wall panelling solution that combines the allure of natural beauty with contemporary design? Look no further than Decorwall Elegance – Mineral. This range is a celebration of the earth's minerals and natural stone materials. Each 300mm wide panel in this collection is not just a piece of décor; it's an embodiment of elegance and modernity.

The Mineral range is defined by its trendy and modern colours. They are finished in a luxurious matt with a subtle texture that enhances the overall feel of opulence. The attractive V groove style fitting adds an extra dimension of elegance. They are ideal for those looking to infuse their spaces with a blend of contemporary style and the timeless beauty of natural elements. Opt for this range to bring an air of refined luxury and natural elegance to your walls, marrying the best of both worlds in wall panelling.

DECORWALL WOODGRAIN

Panel Size
Length: 2.7m
Width: 30cm
Thickness: 8mm

Are you searching for wall panels that capture the essence of natural wood while offering a touch of modern elegance? The Decorwall Elegance – Woodgrain range is designed to meet this very need. These high-quality, 300mm wide panels are a fusion of contemporary style and the timeless appeal of wood. Each panel, with its matt finish and slight texture, offers a luxurious feel, perfectly complementing the modern colour palette. The Elegance range is renowned for its wide array of colour options, ensuring there's a choice to suit every taste.

Inspired by the natural beauty of the earth's woodlands, the Elegance Woodgrain comes in three beautiful finishes. Whether your preference leans towards a rustic, classic, or contemporary look, this range has something for everyone. The panels feature a V groove fitting with a tongue and groove (T & G) style, making them versatile for use in various settings such as bathrooms, studies, or workplaces.

Opt for the Decorwall Elegance – Woodgrain to bring the warmth and charm of wood into your space, combined with the practical benefits and modern aesthetics of PVC panelling.

DECORWALL ULTIMO TILE

Panel Size
Length: 2.7m
Width: 50cm
Thickness: 8mm

Looking for wall panels that mimic the timeless look of real tiles? The Decorwall Elegance – Ultimo Tile is your ideal solution. This range stands out with its realistic cut-in grout lines, offering the classic charm of tiles combined with the ease of PVC panelling. Each panel, at a generous width of 500mm, is not just a covering; it's a masterpiece of design, bringing the beauty of traditional tiling into your space with a modern twist.

The Ultimo Tile range, originally inspired by the earth's minerals and natural stones, provides many stylish finish options. These extra-wide panels offer a highly realistic tile effect that's both visually impressive and tactile. Ideal for those who desire the elegance of tiles with the practicality of modern panelling, the Decorwall Elegance – Ultimo Tile range is a perfect blend of style and convenience. Choose this range to effortlessly transform your walls into a statement of sophisticated design.

For best results when fitting, we recommend fitting from left to right and cutting from the bottom to ensure the best lining up of grout lines possible. The potential fitting tolerance ranges from 0.1mm to 1mm.

DECORWALL THERMO-SLAT

Are you looking for a modern solution to wall panelling that not only enhances the aesthetic of your space but also contributes to its thermal comfort? Introducing the Decorwall Thermo-Slat range – modern slatted wall panels designed to make your rooms feel warmer and more inviting. When fitted these panels create air pockets at the back, ensuring they are warmer to the touch than traditional plaster walls and thereby adding to the overall warmth of the room.

Each wall slat in the Thermo-Slat range is ingeniously designed with a cavity at the back, creating thermal air pockets. This feature is particularly beneficial as it helps retain heat during colder months and keeps the room cool in the summer, offering year-round comfort. The aesthetic appeal of these panels extends beyond indoor spaces; they are an excellent addition to any garden room. Installing Thermo-Slat panels in your outdoor living spaces ensures you can enjoy these areas throughout the year, regardless of the season. Choose the Decorwall Thermo-Slat range for a beautiful and functional upgrade to your living spaces, both inside and out.

DECORWALL

HARDEX 'V' GROOVE

Are you looking for wall panels that offer the perfect combination of toughness and convenience? The Decorwall Hardex V Groove range is precisely what you need. These panels, while similar in durability to the original Hardex range, feature a unique corrugated structure. This design not only maintains the strength but also makes them lighter in weight and easier to handle. Each panel in this range is 600mm wide, offering a practical and efficient solution for wall panelling needs.

A spin-off from the original Hardex Solid Wall Panelling series, the Hardex V Groove collection brings a fresh perspective to this robust range. Available in various colours, these sturdy panels are designed with a narrower 600mm width, differing from the original Hardex's wider 1220mm panels. This modification makes them more versatile and suitable for a broader range of applications. Whether for residential use or commercial settings, the Hardex V panels offer the resilience and style of the Hardex line but with the added benefit of being more manageable and adaptable to different spaces. Choose the Hardex V range for a balance of toughness, style, and practicality in your wall panelling solutions.

- STUNNING SOLUTION TAILORED TO YOUR DESIGN AESTHETIC

DECORFLOOR

ELEGANCE RANGE

Our new Elegance Flooring Range combines natural style with modern practicality. Designed to coordinate perfectly with our Elegance Wall Panels, the stone and mineral-inspired patterns create a seamless, high-end look throughout your space.

Each board is 5mm thick and built with a durable Rigid Click system using Valinge's 2G patented technology, making installation quick and straightforward for both DIY users and professionals. With an integrated 1mm IXPE underlay providing up to 19dB impact sound reduction and excellent dimensional stability, Elegance Flooring delivers comfort, quality, and lasting performance.

Are you in search of flooring that combines the latest technology with natural aesthetics? Discover the Decorfloor WPC Flooring, a range that stands at the forefront of flooring innovation. This collection features Rigid Core Solid Polymer Composite technology, representing a significant advancement over traditional solid LVT flooring. It's designed for those who seek durability, style, and cutting-edge composition in their flooring solutions.

The collection includes ten wood effect and ten stone effect tile finish options, each featuring a wear layer of 0.30mm. These options provide a range of aesthetic choices, ensuring that there is a style to match any interior design. Opt for the Decorfloor WPC Flooring with built-in underlay for a sophisticated, high-performance flooring solution that beautifully mimics natural materials.

DECORFLOOR

NATURAL COLLECTION

The Natural Flooring Collection in this range boasts a composite core construction, distinguished by a higher filler content and a higher density compared to standard options. One of the key aspects of this technology is the omission of a foaming agent, which traditionally introduces air bubbles into the core. The result is a thinner, harder, and stiffer plank or tile, offering an unparalleled level of durability and stability.

DECORCEIL CEILING PANELS

Transform your ceilings with the Decorceil Range, featuring a variety of Ceiling Panels designed to enhance any space. From the sleek White Ash to the modern Gloss White with Chrome Strips, our panels, ranging from 2.0m to 4.0m in size, offer finishes to suit any room. Opt for Metallic/Chrome for a touch of elegance or the Silver Birch for a natural look. Our panels, available in widths of 165mm, 200mm and 250mm, are not only practical but also expert at concealing imperfections, ensuring a flawless appearance. Choose from matt or gloss finishes to perfectly match your décor style.

WHITE ASH

DECORWALL MATCHING TRIMS

Our range of matching panel trims offers a practical solution for seamless wall finishes. Unlike traditional contrasting trims these trims are finished to match the pattern of selected ranges in the Decorwall collection, creating a uniform look. Available as a universal, angle and starter trim, they ensure a precise, professional finish.

Universal, Angle & Starter:
Elegance Abstract
Elegance Damask
Elegance Mineral
Elegance Ultimo Tile

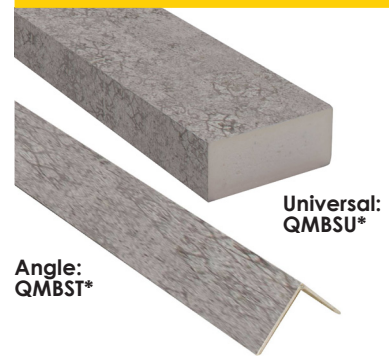

Universal Only:
Thermo-Slat
Vari-Slat
Vari-Wave

Some of our Mineral & Damask Trims can be used with the Ultimo Tile range - colours have been paired in the lists where this occurs.

Universal, Angle & Starter Trims are available in the following ranges/colours:

DECORWALL DAMASK

PVC WINDOW CILL COVERS

SQUARE EDGE

9mm Square Edge Cover Cills supplied in 2.5m and 5m lengths. 100mm standard end cap and 300mm long end cap available.

Sizes: 150mm, 175mm, 200mm, 230mm, 250mm, 300mm, 400mm

HOCKEY NOSE

8mm Hockey Nose Cover Cills supplied in 2.5m and 5m lengths. 120mm standard end cap and 280mm long end cap available.

Sizes: 210mm, 240mm, 260mm

3MM COVERS

We also supply 3mm covers for existing window cills which are 5m and available in 175mm and 245mm with standard end caps.

LAMINATED REPLACEMENT WINDOW BOARDS

Supplied in white in the following sizes: 200mm x 5m, 225mm x 5m, 250mm x 5m, 300mm x 5m and 600mm x 3m. End profiles and joint profile available.

WALL PANEL ADHESIVES

Decorwall Panel Adhesive Pro can be used for fixing internal wall panels such as those in the Classic, Elite, Elegance and Tradeline ranges. For heavier panels use a stronger grab adhesive such as the Decorwall Megabond.

FITTING ACCESSORIES

DECORWALL FITTING ADVICE

This range of panels is suitable for internal application to walls and ceilings.

FITTING ADVICE ...

- Suitable for indoor use only
- Fitting surface must be dry and in good condition
- Fit panels at room temperature or slightly less
- Continuous ventilation is necessary when panels are fitted to walls and ceilings in humid areas
- Use silicone sealant in the groove on the back of the lip for a water tight seal when fitting panels in wet areas particularly around the shower or bath area
- When fitting panels to a false ceiling, or using them to form part of the ceiling itself, allow for at least a 100mm gap above the panels/boards for the heat to disperse. Not following this guidance could mean the panels may distort from heat.
- These panels could be compromised if fitted in areas subject to large temperature fluctuations. Panels installed directly behind a cooking hob should have a suitable splashback panel fitted between the hob and the panels.
- Whilst these panels are produced with the greatest possible care, we do advise checking the panels for size, colour differences and damage. We cannot accept returns once the panels have been fitted.

FITTING MATERIALS ...

When applying panels onto sealed walls, we recommend Decorwall Panel Adhesive Pro which is suitable for most of our wall panels. When installing heavier wall panels, we recommend Decorwall Megabond, which has a stronger adhesion. In shower areas we advise sealing the joints of the panels with a general purpose LMA silicone. Once panels are installed, we recommend using Penosil Sanitary Sealant, or Everbuild Forever White to seal panels in areas prone to water exposure.

5 YEAR MATERIALS GUARANTEE

Our panels are guaranteed to maintain their shape, durability, and water resistance for 5 years from purchase. This non-transferable warranty applies only to the original buyer. Installers are responsible for waterproofing all joints and fixtures; we accept no liability for damage resulting from improper installation or faulty sealing.

FITTING GUIDE ...

MEASURING:

- Measure each wall
- Divide each wall measurement by the panel width
- Round up any fractions to give the number of panels required for that wall

INSTALLATION INSTRUCTIONS:

Before fitting check the surface is even. If uneven then battens must be fixed at 40cm intervals. Leave small gaps to aid ventilation somewhere on each row of battens. Battens can be screwed, nailed or glued to the wall. Glue can be water based grab adhesive, solvent based grab adhesive, silicone or MS-Polymer.

To allow for shrinkage and expansion of the panels, a 1mm gap at the start of fitting is required for every 1m of panelled width. Glue and stick starter edge trim then fit the first panel into the starter edge trim. Use a spirit level to ensure the panels are straight.

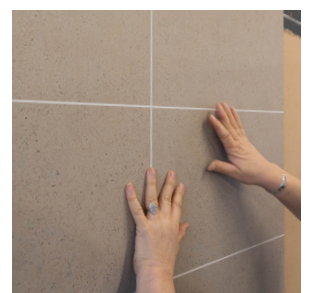

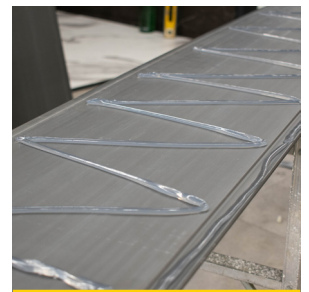

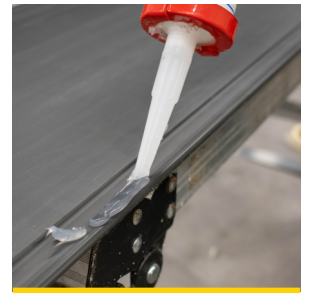

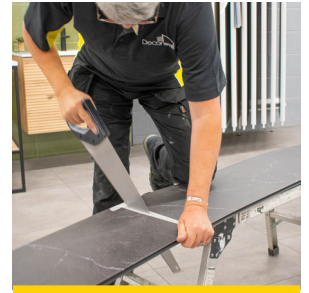

Glue and stick the rest of the panels - slotting them together with the tongue and groove edge. Add trims to complete your walls.

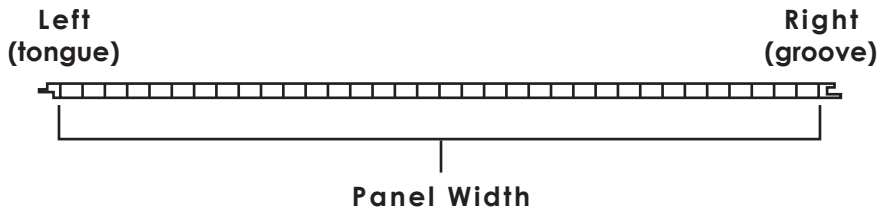

FITTING OF ACCESSORIES:

- If the panels are fitted on battens, accessories have to be fitted with a bushing
- Drill a hole in the panels, insert a packing piece (bushing) to it, and then insert the screw; this helps prevent the panel being crushed when something is screwed tightly to the wall

500 SERIES ... PLEASE NOTE:

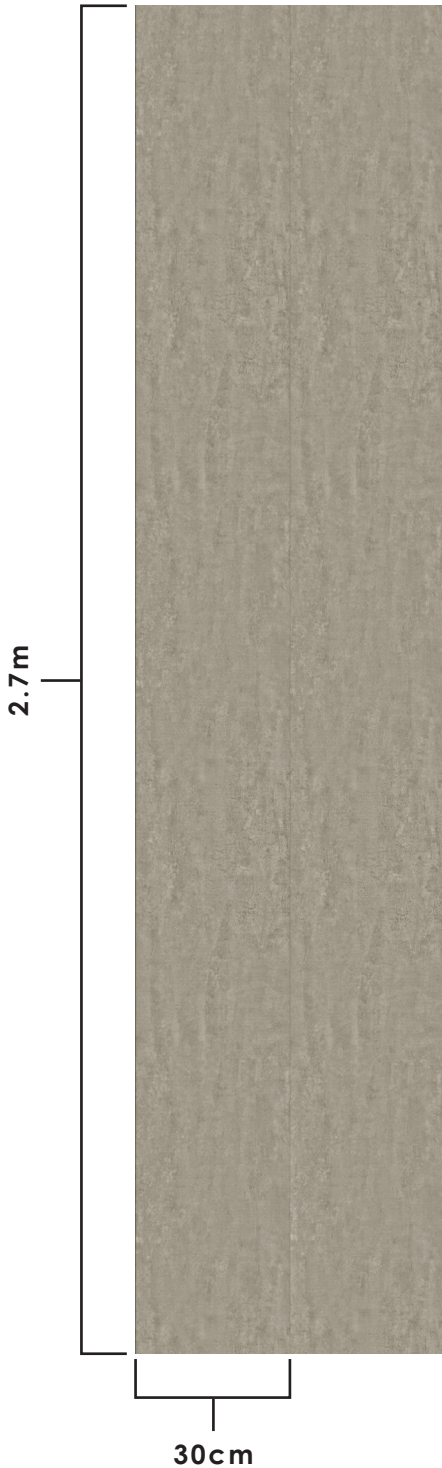

When fitting the **Decorwall Ultimo Tile** and **Decorwall Contempo Tile** panels, we recommend fitting from left to right and cutting from the bottom to ensure the best lining up of grout lines possible. The potential fitting tolerance ranges from 0.1mm to 1mm.
